Monitoring Violations Annual Notice

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for Fayette Water Company

Our water system violated a drinking water standard over the past three year period. Even though this was not an emergency, as our customers, you have a right to know what happened and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During January 1, 2023 to December 31, 2025 we did not monitor or test for Total Polychlorinated Biphenyls (PCB) and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for Total Polychlorinated Biphenyls (PCB) , how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	When samples were or will be taken
Total Polychlorinated Biphenyls (PCB)	2 samples every three years	0	2023-2025	February 2026

What happened? What is being done?

This sample was overlooked for collection, lost in shipping or the results were not provided to the IPEA within the required timeframe during the sampling period. Fayette Water Company has contacted a certified EPA laboratory to have the water analyzed for the contaminant stated above.

For more information, please contact Fayette Water Company Office at 618-427-3000 or 1745 N. 1615 Street, Brownstown, IL 62418.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
